

Express Mail Label No. EV676905665US  
U. S. Patent Application No.: 09/858,163  
Amendment After Allowance Dated April 3, 2006

**Remarks**

The present amendment after allowance is being filed to address minor informalities. Namely; claim 11 is amended to include the word “external” for consistency with remaining recitations of a device element in claim 11 and claim 17 is amended to recite “hand held” for consistency with another recitation of a device element of claim 17. Applicants also include herein the amendments of the Amendment After Allowance dated January 24, 2006 which also addressed minor informalities. The amendments of the January 24, 2006 Amendment After Allowance are re-presented since the applicant has not yet received confirmation that the January 24, 2006 amendments have been entered.

The amendments do not add new matter and do not change the scope of the claims. In that the amendments do not change the claim scope, they will not require additional searching and will not change the position of the Examiner that the claims are allowable. The amendments were not presented earlier since the review yielding the determination that the amendments would be desirable was not completed until after the close of prosecution.

Applicant believes that the filing of the present amendment after allowance will reduce the patent term adjustment. 37 C.F.R. §1.704(c)(10).

Accordingly, applicant respectfully requests entry of the presented amendments and passage to issue of the present application on the payment of the issue fee which is due April 3, 2006, and which is being paid concurrently herewith.

If the Examiner believes that contact with applicant’s attorney would be advantageous toward the disposition of this case, the Examiner is herein requested to call applicant’s representative at the phone number listed below.
